AREEBA HASAN

Data Analyst | Data Scientist

areebhas0510@gmail.com | +91-9628250000 | Lucknow, UP, India | LinkedIn | GitHub

PROFILE SUMMARY

Enthusiastic final-year Computer Science student specializing in Data Science, with hands-on experience in Python, Machine Learning, AI Data Analytics, and backend development. Skilled in building data-driven applications using Fast API, MySQL, MongoDB, React.js, Power BI, and modern web technologies. Experienced in developing real-world projects, including an Advanced Credit Card Fraud Detection system integrating machine learning, authentication, dashboard visualization, and database connectivity. Strong problem-solving abilities with a passion for leveraging AI, data, and technology to build practical and intelligent solutions.

.

TECHNICAL SKILLS

Languages: Python, JavaScript, Typescript
Frameworks & APIs: Node.js, Express.js, React.js, Next.js, Fast API, Vector DBs (Chroma DB)
Machine Learning / NLP: Scikit-learn, Classification, Feature Engineering
Dashboard Tools: Tableau, Power BI
Data & Deployment: Pandas, NumPy, SQL, MongoDB, Git/GitHub,

EXPERIENCE

Python Developer Intern *June 2026 – Jul 2026*

Client Code AI Innovation Pvt.Ltd | Faridabad, India · Remote

- Developed and implemented Python-based applications, focusing on writing efficient code, debugging, and applying Python programming concepts to real-world tasks.

AI & Data Analytics Intern *June 2026 – July2026*

In Amigos Foundation| Virtual.

- Analyzed data and generated AI-powered insights to identify meaningful trends and support data-driven decision-making. .

PROJECTS

Credit Card Fraud Detection — *HTML, FASTAPI, Machine Learning, MY SQL, Python*

- Developed a Advanced credit card fraud detection system using python, integrating machine learning models to identify fraudulent transaction with high accuracy.
- Built user friendly web application using FASTAPI with login authentication real– time prediction, and dashboard visualization
- Connected the system with My SQL database for storing transaction data and results

Sales Analysis Dashboard — *Power BI*

- Built an interactive sales analysis dashboard using retail sales data to visualize KPI's track regional performance and uncover insights that improved profit margin by 15%

AI Interview Coach- *HTML, FASTAPI, Java Script, MY SQL, Python, Pandas, Chroma DB, Speech- to -text, text-to-speech, Sentence Transformers*

- Developed an AI-powered mock interview system using Python, Fast API, JavaScript, and MySQL that conducts role-based interviews, analyzes text/voice responses, generates performance scores, and provides personalized feedback and interview analytics.

EDUCATION

B. Tech — Computer Science & Engineering (Data Science) *2023 – 2027 (Expected)*

Dr. A.P.J. Abdul Kalam Technical University | Lucknow, Uttar Pradesh, India

CERTIFICATIONS

- Certificate of participation for the GEN AI Exchange Hackathon 2025 — Google Cloud
- Data Analyst Participation Certificate — NoviTech Pvt.Ltd
- Certificate of Internship in AI Data Analytics — In Amigos Foundation
- Certificate of Internship in python Development — Client Code AI Innovation Pvt.Ltd
- Certificate of participation in solution Challenge2026for the successful prototype
